

## **Marshfield Labs Welcomes New Anatomic and Molecular Pathologist**

Todd Kroll M.D., Ph.D. joins Marshfield Labs with Anatomic Pathology, Molecular Pathology and Laboratory Medical Directorship Experience. He completed Fellowships in Genitourinary Pathology, General Surgical Pathology and Molecular Pathology (focus on solid tumor molecular genetics and genomics). Dr. Kroll has a Ph.D. in cellular and molecular biology and identified a family of mutations in thyroid cancer. He is Board Certified in Anatomic Pathology and his past clinical work has included academic, private hospital and industry settings.

Dr. Kroll's special interests are:

Surgical and Molecular Pathology relating to cancer diagnosis and patient care  
Diagnostic applications of gene rearrangement mutations in cancer.

Dr. Kroll is excited to be part of the Marshfield Labs team. Contact him at 800-222-5835.
